

## Instructions for Installing ELF at Home

1. Open the Email Message received from [support@awe-net.com](mailto:support@awe-net.com) on the computer where the ELF install is to take place. It will look like this:

5. The ELF installation process will display its Welcome screen.

Click the Next button.

6. Read and accept the ELF End User License Agreement.

Then click the Next button.

7. Allow the installation process to check to ensure that all of the required software is present and to download and install the software that's not present.

Depending upon what needs to be done, this may take between 10 seconds and 2 minutes.

8. Click the "Finish" button.

A new ELF icon will appear on your desktop. Double-click it to launch ELF ... and ENJOY!

Any updates that are required, including updates to the universe of sites included in ELF will download automatically, with no effort or trouble to you. If you have any issues installing ELF at home, please give us a call at 613-342-3936.
